## DETAILED ACTION

### *Specification*

1. The objection to the specification is withdrawn due to Applicant's amendment dated 18 May 2006.

### *Claim Rejections - 35 USC § 112*

2. The 35 USC 112 rejections are withdrawn due to Applicant's amendment dated 18 May 2006.

### *Claim Rejections - 35 USC § 102*

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

or

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by the following:
  - US Pat. No. 4,836,468 (Singer, hereafter '468)
  - US Pat. No. 5,107,904 (Van Mullekom, hereafter '904)
  - US Pat. No. 5,244,160 (Hinchliffe et al., hereafter '160)
  - US Pat. No. 5,323,178 (Mohnkern et al., hereafter '178)

- DE 2618112A (hereafter '112)

Each of the above patents teach a turn-table with inclined rolls on pallets.

5. Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by US Pat. No. 6,911,300 (Sato et al.).

Sato teaches a turn-table with an inclined roll on a pallet.

#### *Allowable Subject Matter*

6. Claims 6-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

#### *Response to Arguments*

7. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

#### *Conclusion*

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Examiner notes that JP 2004232028A and JP 2004223751 read on claimed invention however due to the publication dates are not used in the rejections.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 3722

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
